Pohela Baishakh-April 14th `sasrai' Day Appeal

Planet Friendly WED Celebration

**Our Heartiest Gratitude to all Volunteer and Well Wisher across the Globe on the
Eve of sasrai-Movement's 12th Birthday**

`sasrai' appeal turned into demand of seven billion

`Consume With Care'

sasrai Day appeal Planet Friendly World Environment Day (WED) Celebration

'Seven Billion Dreams. One Planet. Consume with Care'.

sasrai Day appeal Planet Friendly World Environment Day (WED) Celebration

To

Mr. Achim Steiner

Attention: Mr. Naysan Sahba

Acting Director of the Division of Communications Public Information and Spokesperson

Office of the Executive Director

United Nations Environment Programme (UNEP)

Nairobi, Kenya

Subject: Environment Friendly World Environment Day Celebration

Dear Sir

Greetings from sasrai-Movement

Please be kind to accept our heartiest thanks and appreciation. We are happy enough that people voted and UNEP acknowledged World Environment Day (WED) theme - 'Seven Billion Dreams. One Planet. Consume with Care.'

Since 2004 'sasrai' appeal ('**We must get each child caring to each particle of food and resources. Combat the Climate Change, Global Warming, Poverty, Hunger, Disaster, Ensure Peace, Justice, Dignity and Rights for Each – save a bit, reserve, preserve, rejuvenate and conserve resources'**) that turned into demand of seven billion today.

In this momentum sasrai-Movement appeal to UNEP and all concern across the globe let's have initiative to keep WED Celebration Planet Friendly.

WED Program needed to be Community Commenced, Designed and Managed

Message

- Community given/taken/proposed
- Community perceived
- Community values and belief friendly

Material

- Environment friendly
- User friendly
- Locally available
- Solid waste reducing
- Long term useable
- Less costly

'Scientist says Earth is halfway to being inhospitable to life'

We hope and believe your simple initiative could save much resource exploitation in the name of WED Celebration across the globe.

Kindest Regards

SM Farid Uddin Akhter

Subject: Let's stop corporate sponsored Colorful World Environment Day (WED) Rally

Dear Sir
Greetings from sasrai-Movement

In every city, town assigned authority as well as some other NGOs and CSOs organize a very colorful rally celebrate the WED like other national and international day observation. Informed people opine most of the fund comes from different corporate or some business enterprise and most of those could be taken as environment enemy. Rally organizing authority arranges drinks (so called fruit juice) for the participants, in no way that could be considered health friendly.

This sort of fund mobilization or peoples' participation for environment certify environment enemy as Environment Friend and promote sales of those unfriendly, unhealthy, low quality goods. Business firm masterfully exploit the environment activist and mass people by their deceiving trick.

It's observed that tricky environment enemy awarded by the environment authority. In fact in the name of WED observation we put some additional burden on nature as well as it misguide the children and youth participants regarding their daily living and environment realization.

Astounding fact it happened in front of several responsible high official and influential people. Person responsible in organizing those function argue it has become a tradition and they have to follow the conventional system.

Influential people gather for rally each of them capable to organize a meeting in any community that ensures much more mass people involvement in environment thinking, practicing and social mobilizing.. As for example one influential leader/official could go to one school or community and has a session for one hour and present simple message 'save a drop water, plant a native tree, avoid costly packaged goods, please no more junk food, fast food' could contribute lot for the environment.

We believe time has come to rearrangement of mindset and action. We have no chance to be indifferent to the nature, resource consumption in the name of auspicious program. .

We hope your kind action to get the authority/responsible personality on the right side of history. Please have initiative to stop this environment enemy sponsoring nature attacking custom. Let's design environment friendly program that include message for mass peoples dos and don'ts.

WED theme should be translated into action for the mass people

`sasrai' appeal turned into demand of seven billion
`Consume With Care'

My Dear Reverend `sasrai-Movement' Volunteer across the globe
`sasrai' appeal turned into a demand of seven billion – Consume With Care. This is the moment of ecstasy and excitements please feel my heartiest thanks, felicitation and gratitude to all of you. This is the result of your relentless support and tenacity to attainment Resource Caring, Responsible Individual, Family, Institution, Organization.

In this fairly beautiful moment our special gratitude to the United Nations Environment Programme (UNEP) accepted huge voted (votes increase by almost 600% over 2014) World Environment Day (WED) theme -

`Seven Billion Dreams. One Planet. Consume with Care'.

The center piece of voters demand seven billion (state driver to street beggar) will be caring to the each particle of resources. `sasrai' appeal (**`We must get each child caring to each particle of food and resources. Combat the Climate Change, Global Warming, Poverty, Hunger, Disaster, Ensure Peace, Justice, Dignity and Rights for Each - save a bit, reserve, preserve, rejuvenate and conserve resources'**) turned into demand of seven billion today.

We know better only the day observation or theme fixation for one year cannot contribute to needed success. It demand incessant strive to bringing significant change in mindset, behavior and attitude among all. Let's raise our voice from each corner of globe for sasrai and design the program that community could uphold within themselves with their available resources.

Let's revitalize ourselves to do more and more. Let's we all have Prudent, Provident, Proficient plan to demonstrate the acceptance of our appeal by the highest authority, finally the global community. Let's design our program based on respective community demand and practicability. Let's not be

high ambitious. Please go slow and steady. We shall overcome build a warning free earth for our next generation and each creature.

Everything on this planet is symbiotically connected - plants, animals, humans and the Earth itself. Unfortunately our maximum program Human focused. Let's ponder on design the program, message and material inclusive.

Planet in Need

- **Each Creature Equality**
- **Gender Equality**
- **`sasrai' Living**
- **Stop Consumption Slavery**
- **Stop Advertisement Administered Lifestyle**

sasai-Movement Appeal

sasai-Movement

NB.

- If we don't smarten up in consumption, scientists estimate that humans will consume twice as many resources as the planet can support by 2050. The consequences grow more and more severe as forests shrink, water becomes scarcer, arable lands diminish, and the level of greenhouse gases in the atmosphere approaches a deadly point of no return. **Let's we try to save one Taka/dollar/pound/yenfrom our daily use, consumption, expenditure, LUXURY combat the CLIMATE CHANGE, GLOBAL WARMING and the sequences Poverty, Hunger, Disaster, Peace, Justice, Human Security, Dignity, Rights**
<http://sasrai.com/unep-voice-sasai-movement-in-wed-theme-2015/>
- Breakthrough Study says Climate Change And Violence Linked
- Absolute truth for today's world careless consumption driving untenable production that driving changes in temperature and weather patterns and that's the Hotter and Hungry World. Hungry world will contribute millions of desperate people. Desperate people do desperate things: They riot, they fight over food, they overthrow governments, and the mass migrate to food-secure countries.
- Deforestation Drives Changes in Climate, Food Production natureworldnews.com

Abu Dhabi, April 2015 – Over 650 delegates from government, UN bodies, the non-governmental sector, private sector, academia and civil society will gather in Abu Dhabi between 6 and 8 October for the Eye on Earth Summit 2015, to bridge the information gap policy makers face in designing plans for sustainable development.

The experts gathered will explore solutions and actions necessary for greater access to, and sharing of, environmental, social and economic data to support sustainable development. The Summit will address the profound impact that rapid economic and industrial development is having on natural resources, biodiversity and consumption patterns around the world. These global challenges require international collaborative action to find transformative solutions that span political boundaries and help secure a sustainable future for all. One of the critical first steps – and the focus of Eye on Earth Summit 2015 – is to address the need for evidence-based decision-making that can benefit from the available wealth of scientific data, information and knowledge, if they are made more accessible to all.

Dear All

Greetings. I do believe prior to all we should have a initiative to bringing significant change in mindset among all. We must remember that there are some people in the name economic growth/development they try to earn money out of anything-even Human life, misery and pain. And person on the sit of authority permit them to do being slave to their consumption/greed. Look at Bangladesh SAVAR TRAGEDY.

Central cause of climate threat is our unsustainable consumption across the globe. And we can say our present sorrow is greed breed. First of all we must bridle it. State driver to street beggar are slaver to consumption. Policy maker are bonded to consumption slavery. Until and unless we are able to make us free from consumption slavery, every talking, writing, thinking is abortive. Let's raise our voice in favor of sasrai feeling and practicing that can save our earth, nature, biodiversity. We can hope disaster, hunger and poverty free world.

Origin of sasrai concept is self actualization of development worker, 'the gap between target and achievement'. Last half of the year 2000 a group of development worker tried to assess the net result of their unbearable labor and sufferings aimed at alleviate the poverty or mass peoples' sorrow. It observed plan, project, initiative formulated in the name of poor but totality come just anti poor. Yes it is true

running initiatives reach some poor in particular area and aspects but result is such a tiny to meet the need as per discussion, decision, plan and implementation.

Dear Adib

Greetings. Please have patience and passion to translate. You know Bengali and English but these file needed to be translated in different language. And you are facebook to get friend different part of global village that can contribute to translated your idea and their community, nation. Please be keen to put you in that position. And I do believe this is not such a tough job. Please start you mission.

After translation upload the file and PUT YOUR NOTE – THIS IS MY EARNEST REQUEST TO sasrai Volunteer across the globe, ANYONE FROM ANY CORNER OF GLOBE PLEASE TRANSLATE IT IN YOUR LANGUAGE and upload it here. sasrai-Movement's volunteer will be grateful to you for your kind cooperation and mother planet earth, environment benefited. This action will contribute to get prepared to face the biggest threat for the humanity - climate change. Thanking you in advance for your generous job the humanity.

NB. June 05, 2013 by 08:00 you will be at stadium gate. Other volunteer will be there. No matter how many of you coming 05, 10, ----- but make sure your presence. But from tomorrow you ask your friend collect money and make banner. No matter what will happen you declare your position.

To

Ms. Sara Khan

Dear Madam Please circulate the message among your friend and ask them to circulate across the globe. Hope your kind cooperation and suggestion strengthen the sasrai-Movement.

Best Regards.

Mr. Neil Chadder, NIPPON KOEI UK, International Consulting Engineers nmchadder@nkuk.co.uk

Dear Neil

Greetings. First of all special thanks for your time and coffee. I am really grateful and proud to enjoy this opportunity. It is a misfortune for me that you are leaving Bangladesh immediate after our acquaintance. May be this is the irony for the global community, everybody say about poor but action taken Anti Poor. This is why David Korten wrote policy we adopt or formulate always that contributing MISERY FOR MASS FORTUNE FOR FEW. Who knows how the process ended.

I do believe promotion of sasrai is utmost need for the betterment of environment, humanity, uphold poorer's rights. In develop country people have many green behavior but still there is a very big gap.

World Environment Day 2013 theme **[Think.Eat.Save.]** is the resonance of sasrai-Movement Voice. Think.Eat.Save is an anti-food waste and food loss campaign that encourages us to reduce our footprint. According to the UN Food and Agriculture Organization (FAO), every year 1.3 billion tonnes of food is wasted. This is equivalent to the same amount produced in the whole of sub-Saharan Africa. At the same time, 1 in every 7 people in the world go to bed hungry and more than 20,000 children under the age of 5 die daily from hunger.

Every year, consumers in rich countries waste almost as much food (222 million tonnes) as the entire net food production of sub-Saharan Africa (230 million tonnes). The amount of food lost or wasted every year is equivalent to more than half of the world's annual cereals crop (2.3 billion tonnes in 2009/2010). Food loss and waste also amount to a major squandering of resources, including water, land, energy, labour and capital and needlessly produce greenhouse gas emissions, contributing to global warming and climate change.

Based on this statement sasrai promotion needed for the global community. What we discussed could be summed up as follows

01. It is really tough to ensure facility for the poorer
02. sasrai could be one of the best means minimize the need for the poor in CWASA
03. There is enough scope and need to speed up the sasrai program in Bangladesh aimed at better environment, promote green behavior, as well as address the poorer need. And we need some external assistance popularize the sasrai-Movement activities. And I do hope your assistance strengthen sasrai-Movement nationally and internationally.
04. I am seeking your help to get my job with any consulting house.

Regards

NB. Giving you my CV in another mail

Anti poor plan in each initiative. Facilities accrued by taxpayer's money, person on position to allocate s/he sell it to the rich. And rich are shamelessly bribing the officials to enjoy the undue facility.

Mrs. Fatemeh Masouleh Ph.D, Senior Engineer, njs-masouleh@mbr.nifty.com,

Bangalee is a fairly beautiful nation in the world. Our humanitarian quality is unparallel. We can sacrifice our life for the language, for the liberation. Still we are in a position to sacrifice our any possession for the betterment of nation, even life for an individual that SAVAR Tragedy shown.

Fortunately or unfortunately nation had to have a mindset 'we need to be a rich nation' 'we have to earn money' after the liberation war 1971. In course of time this national feeling turned into individualistic demand and fundamental point stand - 'I have to earn money in any way.' To earn money we haven't planned prudently, adopted major tactic is reduction of production cost, no matter whether it is in exchange of rights, health and environment.

This individualistic thinking, feeling, practicing broaden rapidly that's could be considered more fatal than cancer, HIV/AIDS. Grass root to topmost position, varsity graduate to illiterate each got same mindset 'I have to earn more and more money in any way.' Presently this money making mindset has become a catastrophic threat for the nation, national development, growth, progress, environment, health, education, culture etc. To draw out the nation from this dreadful mindset need strenuous and time consuming effort.

People in all works of life are crazy for money making but each has a good soul to be fair, helpful, generous, caring and accommodative. Most of our unfair attitude and behavior happened due to ignorance of both the party employer and employee. We do believe if they are informed minor change in setting, thinking, practicing, behavior and attitude could ensure better working place for the employee and that might accumulate more benefit for all, each of them will take on rights, health and environment friendly order.

Rationale:

Extreme poverty, illiteracy, ignorance and lack of farsightedness above all lack good governance from government and social side compelled the parents/guardian put their children in unwanted, undesired, unexpected health hazardous and rights abusing job. That breeds a pessimistic and disparaging mentality among the children and youth that encouraged them to be induced in different self, community and nation killing activities like terrorism, drug carrying and abusing, smuggling, eve teasing etc. Unplanned and unwise growth of young generation is dreadful threat to our social harmony and security. Ensure improve and aspired mindset for peaceful living, professional development of our young generation is utmost requirement for the social peace, national growth and progress. Aimed at better living for lower section people of nation project could contribute to get them drug and sex abuse free life, restrain from eve teasing, honor for women finally gender sensible citizen.

GRAND ACHIEVEMENT OF sasrai-Movement

Dear Madam/Sir

Greetings. Please be informed today May 26, 2013 Divisional Commissioner of Chittagong served letter to DCs and heads of education administration office to ensure MONTH LONG sasrai Banner hanging in observance of World Environment Day 2013 in each government office and education institution. May be this is the first time in the history of Bangladesh government uphold own the voluntary initiative.

We believe very soon our hon'able premier of Bangladesh Sheikh Hasina will do same - pass government order to keep sasrai-Movement banner in each government, non-government, business office and educational institution must keep a sasrai Banner yearlong that translate green action for each and every citizen irrespective of class, race, religion, cast, creed and ethnicity.

We do believe UN will take initiative to have a decision like our hon'able premier Sheikh Hasina for the globe. Cause sasrai **ONLY THE PATH TO SAVE THE PLANET EARTH, ONLY THE PATH TO Eliminate Racial Discrimination, END VIOLENCE AGAINST WOMEN, CHILDREN or whatever we say. sasrai ONLY THE PATH TO END VULNEARABILITY, HUNGER, DISASTER, CLIMATE Threat.** Each second, minute, hour day needed to be spent considering earth, environment and humanity.

sasrai-Movement Volunteer waiting for that very golden moment.

Hope the best, much love.
