Take Note of These 5 Frugal Habits of the Rich

<http://sg.finance.yahoo.com/news/note-5-frugal-habits-rich-142058478.html>

01. Food

Please have an effective plan to Stop the Food waste in developed country that could ensure better service for the Poorer. As of 2011, 1.3 billion tons of food, about one third of the global food production, is lost or wasted annually. Loss and wastage occurs on all steps in the food supply chain. In low-income countries, most loss occurs during production, while in developed countries much food - about 100 kilograms (220 lb) per person and year - is wasted at the consumption stage. Food production, including agriculture, represent 29 percent of the greenhouse gases that are causing global warming, say scientists with the Consultative Group on International Agricultural Research (CGIAR).

USA mass shooting at Sandy Hook Elementary School, on December 17 in Newtown, Connecticut teaches global community, WE MUST "inspire us to be better, more compassionate and caring toward other people." Central cause of Climate Threat is our Consumption – that breeds unsustainable production – that breeds Hooter World and that's the Hungry World, Disastrous world and World of stress. If we feel the need of Warning Free World for our next generation we must have bridle on our consumption. We must accept - 'HOW MUCH LESS CONSUMING I COULD BE.' In absence of sasrai feeling, thinking and practice we can't offer a habitable earth for our next generation.

sasrai believe in Climate Justice and urge to all across the Globe -----

Each individual, family, community, nation must have the Position to say we all **Street Beggar to State Driver** are Resource Responsible, Climate Sensible and Development Policy is Climate Compatible. We like to keep our children destruction and warning free. Each citizen across the globe must say I am the follower of sasrai - never abuse single particle of food or any resource. We are self asking in every step 'HOW MUCH LESS CONSUMING I COULD BE.' Let's we try to save one Taka/dollar/pound/yenfrom our daily use, consumption, expenditure, LUXURY combat the CLIMATE CHANGE, GLOBAL WARMING and the sequences.

A sign asking for help from FEMA (Federal Emergency Management Agency) is seen in the Broad Channel section of the Queens borough of New York November 2, 2012. Four days after superstorm Sandy smashed into the U.S. Northeast, rescuers on Friday were still discovering the extent of the death and devastation in New York and the New Jersey shore, and anger mounted over gasoline shortages, power outages and waits for relief supplies. **REUTERS/Shannon Stapleton (UNITED STATES - Tags: ENVIRONMENT DISASTER)**
